PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building and evolving web applications, REST APIs and enterprise systems, working with Java, Spring Boot, C#/.NET, React, Angular and Salesforce. Experience with international projects, system integrations (including payment providers and CRMs), microservices architecture and best practices such as SOLID, Clean Architecture and Clean Code. Hands-on experience with relational and non-relational databases, messaging, cloud (AWS and Azure) and CI/CD. Seeking a Mid-level/Senior Full Stack Developer position.

TECHNICAL SKILLS

Languages: Java • C# • JavaScript • TypeScript • PHP • Elixir • Python • SQL

Frontend: React • Angular • Next.js • Ionic • HTML5 • CSS3 • Sass • styled-components • Tailwind CSS

Backend: Spring Boot • Spring Data • Spring Security • Spring MVC • .NET Core • Node.js • NestJS • Java EE • REST APIs • JWT

Databases: PostgreSQL • MySQL • SQL Server • Oracle • MongoDB • Redis

Integrations & Messaging: Dynamics CRM • MuleSoft • Webhooks (Stripe, Pagar.me) • Kafka • RabbitMQ • ActiveMQ

Cloud & DevOps: AWS (CloudFront, EKS) • Azure (Functions, DevOps, Storage, App Insights) • Docker • Kubernetes • OpenShift • Git • Git Flow • Maven • CI/CD (Azure DevOps, GitHub Actions, GitLab CI)

Architecture & Quality: SOLID • Clean Architecture • Clean Code • Design Patterns • Microservices • Unit and Integration Testing

Salesforce: Apex • Lightning Web Components (LWC) • Salesforce Flow • SOQL/SOSL

Other: WildFly • jCompany/Jaguar • BPMN • GitHub Copilot

Methodologies: Scrum • Kanban

PROFESSIONAL EXPERIENCE

Full Stack Developer — International Consultancy (Client: Architect, Madrid, Spain)

2024 – 2026

- Full Stack development for international clients using C#/.NET, Java, React, Next.js and Angular.
- Styling with Sass and styled-components, following a Design System built from scratch.
- Micro frontend and microservices architecture, integrating multiple teams and applications.
- Event-driven integrations via webhooks (Stripe, Pagar.me) and messaging (Kafka, RabbitMQ).
- Development and maintenance of RESTful APIs, applying SOLID and Clean Architecture.
- Support and customization of Dynamics CRM, and use of MuleSoft for system integrations.
- Serverless solutions with Azure Functions, Azure Storage Accounts and Application Insights.
- Deployment and orchestration with Kubernetes, OpenShift, AWS CloudFront and EKS.
- CI/CD pipelines with GitLab CI and version control using Git Flow.

Internal Solutions Developer — Nunes Invest

2022 – 2024

- Development and evolution of internal tools with Java, Spring Boot and C#/.NET.
- Development and consumption of REST APIs, applying SOLID and clean architecture.
- Support and customization of Dynamics CRM and development of Azure Functions.
- Work with Oracle and SQL Server databases, using Redis for caching, queues and sessions.
- Event-driven integrations with Kafka and RabbitMQ.
- Support of applications running on WildFly and development with Java EE and jCompany/Jaguar.
- Process modeling in BPMN and work on credit lending products.
- Maintenance of PHP systems and frontend development with React and Angular.
- JWT authentication, unit and integration testing, builds with Maven.
- Process automation, bug fixing and use of GitHub Copilot.

Software Developer — Various Projects (Salesforce and Freelance)

2021 – 2022

- Development of web applications with React, Java, Spring Boot and C#/.NET for different clients.
- Creation and maintenance of REST APIs, with relational database modeling.
- Salesforce development using Apex, Lightning Web Components (LWC) and Salesforce Flows.
- SOQL queries and migration of Process Builder automations to Salesforce Flow.
- Version control using Git and GitHub.

PROJECTS

FFSystem — *Java, Spring Boot, React, JPA/Hibernate, MySQL/PostgreSQL*

Business management system (ERP/POS) for sales, products, customers and inventory. Responsible for the backend, REST APIs, business rules and data persistence.

Europa Pra Você — *React, JavaScript, C#/.NET, REST APIs*

Full Stack application focused on web feature development and integration between the frontend and a .NET backend.

Grupo Mais Saúde — *React, JavaScript, HTML, CSS*

Institutional website for a medical clinic, focused on responsive interfaces, UX and API integration.

EJC Group Industrial Maintenance — *React, JavaScript, Tailwind CSS*

Institutional website focused on responsiveness, componentization, performance and SEO.

Marianne Soares Machado — Nutritionist — *HTML, CSS, JavaScript*

Institutional website for a clinical and functional nutritionist, focused on conversion (WhatsApp booking), SEO and showcasing services and patient testimonials.

EDUCATION

Bachelor's Degree in Information Systems
